

ESSENCE SERIES BOTTOM ROLLING SHOWER DOOR SYSTEM

- Headerless System Offers Popular Frameless Look
- Bottom Rolling System has Integrated Height Adjustment
- Rollers Include Anti-Derail/Anti-Pinch Guard
- Choice of Rounded or Square Style Roller System
- For Use Only With 1/2" (12 mm) Thick Tempered Glass (Not Included)

Our Essence Series allows a headerless appearance by utilizing a bottom rolling system that includes an anti-derail/anti-pinch guard feature. The bottom rollers also have an integrated height adjustment for door to vertical jamb alignment. By being completely header-free, a frameless vertical and horizontal appearance is achieved. Smooth and quiet operation of the door is the cornerstone of this bottom rolling unit. At the same time, excellent water management is accomplished at the sill via the bottom track, and vertically with the use of a clear L-shape jamb.

With your separate addition of a free standing shower head and valves, new configurations are possible, such as beautiful island designs, U-shaped designs, and L-shaped designs with unconventionally placed plumbing walls.

The Essence Series Frameless Sliding Shower Door System is for use only with 1/2" (12 mm) thick tempered safety glass (not included). It is stocked in four popular finishes, with a choice of rounded or square corner rollers.

Sold in a Basic Kit that allows both 180 degree and 90 degree installations, the user simply orders the necessary Brackets, plus the Handle or Knob separately, to complete the installation. See the important How to Order Section below.

Go to crlaurence.com/shower-sliders to see the Essence Sliding Shower Door System With Header as an alternate sliding system.

US Patent No. 9364121
Australian Patent No. 2012328876

Canadian Patent No. 2853462
Deutsches Patent No. 2770890
